Angelina Film - Individual Colors
\$2.49

HAF321 Blaze Crystalina

There are 18 separate colors of Angelina Film. Rather than listing them separately I am adding them all here. You can use the drop down box to select each color you would like or choose one of the pre-made mixed packs.

This is for 3 feet x 4 inches of one color only. To add more colors, you will need to add each one to the cart separately.

I have used a picture showing all the available colors and you can also view the separate colors in the Photo Gallery. Due to website restrictions I am only able to add a maximum of 5 pictures per product.

International customers please note:
 Due to increased parcel shipping rates, I will ship these by flat envelope to save additional shipping costs. Sending this way will require me to put folds into the Angelina instead of rolling them and putting in padded bags as I normally do. If you do not wish me to fold the Angelina please contact me first so I can give you a parcel shipping cost before ordering.

[All Products](#) / [Bonding Powder Refill Kit](#)

Bonding Powder Refill Kit
\$9.95

Bond Angelina to your quilt projects, repair tears and rips in fabrics, apply appliqués or labels using Bonding Powder. Refill kit includes one 2 oz. container of the powder, which is enough for up to 150 repairs. Make sure you always use with the Bo-Nash Ironing and Craft Sheet, which is included in the Starter Kit or sold separately.

Due to increased prices from USPS on international shipping, if ordering this item plus other items, please email me so I can calculate correct shipping before you order, as it is almost impossible to calculate multiple item shipping.

WEB STORE - SHOP

My Cart: 0 items

[All Products](#) / [4x4x4 Angelina, Foil & Mylar](#)

4x4x4 Angelina, Foil & Mylar

\$9.95

This great starter pack contains the following:

16 Color 4" x 4" Foil Sampler Pack

18 color 4" x 4" Angelina Film Sampler Pack

11 color 4" x 4" Opal and colored Opal sampler pack

Bonus free 4 neon colors 4" x 4" sampler
 Bonus free trial foil & glitter glue

These wonderful foils can be used to embellish so many items from clothing to greeting cards, glassware and a multitude of other uses. The foils need to be applied using either a special foiling glue or glue pen. I have the fine tip ballpoint glue pens for sale also as well as bottles of flexible foil and glitter glue which is fully washable.

Want to try Angelina Film? This is a great way to give it a try and sample all 18 colors in a handy 4" x 4" size. Once you decide which colors you like best, you can purchase larger quantities at a later time. Colored opal mylar - just a taste to see which colors you like. Available in sizes from 4" x 4" right up to 18" x 30"

Overseas customers please note

Because the included free foil glue necessitates sending your order by parcel post, this makes the shipping very expensive. If you would like your order without the pot of glue, I can send this much cheaper. You would need to email me first so I can get back to you with the shipping price.

Due to increased prices from USPS on international shipping, if ordering this item plus other items, please email me so I can calculate correct shipping before you order, as it is almost impossible to calculate multiple item shipping.

[All Products](#) / [5ml Teflon craft sheet 10" x 20"](#)

NEW

5ml Teflon craft sheet 10" x 20"

\$12.95

This amazing non stick craft sheet has many uses.

Firstly it is 5 mil (0.125mm) thick. The second picture shows the 3ml sheet on the left and the 5 ml on the right. Some of the uses are working with polymer clay, paints, glue, interfacing, candle wax, soldering, embossing, stamping, pretty much any craft you would like to do. This sheet protects your work surface and has a lovely smooth wipe clean surface. For dried on paints, glue etc. let dry then just use a credit card to scrape it off. It can be washed or cleaned with wet wipes.

This thicker sheet is also used on heat presses to protect the heated surfaces.

I mostly use mine for pressing Angelina fiber and films and delicate fabrics. I also use it for polymer clay and my Shiva Painstiks. I also have one I have been using as a cookie sheet in my oven. I have used it for fish, fries, chicken breasts etc. Nothing sticks to eat and it makes for an easy clean up and protects your pans. It will last you for years and years.
